## ***mystar* ToGo – version 2.0 of the star app**

**The popular app *mystar* ToGo now offers even quicker help with the search for the closest and cheapest star petrol station.**

**Elmshorn, 31 May 2011 – The star brand is getting ever closer to its goal of becoming the most popular petrol station brand in the northern half of Germany. There is now yet another reason for this thanks to the new version 2.0 of the *mystar* ToGo app. The advantage for you: increased user-friendliness, genuine added value and better orientation for customers.**

The new version *mystar* ToGo 2.0 offers an even quicker and more reliable answer to two of the most important questions for all drivers of cars, lorries and motorbikes: where can I find the nearest star petrol station in a quick and uncomplicated way? And which star petrol station has the cheapest fuel? As well as the quicker t.Finder (petrol station finder) and simplified routing, the t.Watchlist (price watch and service data) has been effectively optimised.

One new feature is that the t.Watchlist can now also be activated directly via the app *mystar* ToGo as well as via the star homepage ([www.star-tankstellen.de](http://www.star-tankstellen.de)). Users can thus change fuel type while on the move, start new station searches and find petrol stations close by as well as the best fuel prices and additional info at any time. The app is synchronised continuously with the t.Watchlist on the website. “Users will in future be able to keep track of current prices even more quickly and conveniently while on the move and head for the nearest star petrol station”, explains Wieslaw Milkiewicz, Managing Director of ORLEN Deutschland GmbH. “The satisfaction of our customers is our top priority. For that reason, we are always on the lookout for opportunities to make our customers’ lives a little easier.” Another new feature is that the app is now also available for Android-based smartphones as well as for iPhones.

**star – a strong brand of ORLEN Deutschland GmbH**

star is the petrol station brand of ORLEN Deutschland GmbH, which has operated more than 500 petrol stations in the northern half of Germany since 2003. The company, which has its headquarters in Elmshorn near Hamburg, belongs to the Polish oil and petrochemistry group PKN ORLEN SA, which is the largest Polish company with an annual turnover of 23 billion euros in 2010 and one of the largest Central European groups.

PKN ORLEN SA is listed on the stock exchanges in Warsaw and London and is represented on the petrol station market in Eastern and Central Europe with a total of 2,700 petrol stations in Germany, Lithuania, Poland and the Czech Republic. In recent years, large investments have been made in Lithuania and the Czech Republic to bring the group a step closer to its goal of becoming the leading oil company in Central Europe.
