## **ORLEN Deutschland finishes management restructuring: Wieslaw Milkiewicz leaves the company**

**Elmshorn, 9th October 2018 – ORLEN Deutschland GmbH completes management restructuring measures. In this context, Wieslaw Milkiewicz (51) leaves the company he successfully co-managed as CEO for eight years.**

The reorientation of ORLEN Deutschland's management already began in August with the enlistment of the new managing directors Waldemar Bogusch (57) and Oskar Skiba (54). With Wieslaw Milkiewicz's send-off on 26/09/2018, courtesy of the Supervisory Board, the restructuring measures have now been completed.

Wieslaw Milkiewicz worked for ORLEN Deutschland for a total of ten years. In 2008, he began as Head of Marketing and PR. After two years, he took on the position of Managing Director. From 2010 onward, he was a member of the management team, operating primarily as Chief Technical Officer. His role saw him assume responsibility for the areas of network development, technology, IT, marketing and corporate communications.

During this time, the filling station network grew continuously, and star became Germany's most popular petrol station brand. ORLEN Deutschland thanks him for this achievement and his great commitment to the company.

Following the departure of Wieslaw Milkiewicz, the three managing directors Waldemar Bogusch (CEO), Dariusz Pawlik (COO), and Oskar Skiba (CFO) now lead the company.

## **star – a strong brand of ORLEN Deutschland GmbH**

star is the petrol station brand of ORLEN Deutschland GmbH, which has been operating more than 580 petrol stations in the northern half of Germany since 2003. Headquartered in Elmshorn near Hamburg, the company is part of the Polish oil and energy group PKN ORLEN SA, which, with annual sales of EUR 23 billion in 2017, comprises the largest Central Eastern European corporate group.

PKN ORLEN is an innovative player in the oil and energy market and is listed among the representative global rankings of the world's leading energy and technology corporations such as Platts TOP250 and Thomson Reuters TOP100.

The group has a modern infrastructure capable of processing more than 30 million tons of different crude oils per year. Retail sales are handled via the largest filling station network in Central and Eastern Europe at almost 2,800 stations.
