#### **About ORLEN Deutschland GmbH**

ORLEN Deutschland GmbH was founded in March 2003. It is a 100 per cent subsidiary of the Polish multi-energy group ORLEN S.A. and part of the international ORLEN Group. The company currently operates over 600 ORLEN and star filling stations on the German market. ORLEN Deutschland GmbH, based in Elmshorn, is one of the ten largest filling station operators in Germany and is involved in a wide range of sports and cultural sponsorship activities (e.g. handball, winter sports, music festivals).

In keeping with the claim “Moving forward together”, ORLEN and star filling stations offer high-quality fuels as well as their own shop products at an attractive price-performance ratio. ORLEN Deutschland is increasingly focussing on the expansion of electromobility offerings, alternative, sustainable fuels and the environmentally friendly use of resources. Customers receive additional services such as car washing, ATM and package services at many stations. Filling stations with 'star café' and 'stop.café' invite customers to take a break in a feel-good atmosphere and offer coffee specialties throughout the day, a wide selection of food, as well as hot and cold snacks.

ORLEN S.A. further expanded its market position in the DACH region at the beginning of 2024 with the acquisition of Turmöl fuel stations. With over 260 stations, ORLEN has a market share of around 10% in Austria, making it one of the three largest owners of fuel station networks in the country.
